

PAN PACIFIC RECYCLING

Solar Panel and Battery Recycling
Solutions

1-800-838-0802

Recycling your solar panels and batteries
can help you save money.

Pan Pacific Recycling

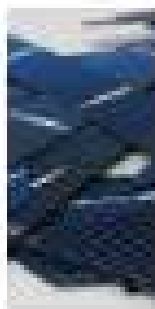

Our mission is to enable the sustainable growth of the energy industry by providing efficient and responsible recycling solutions for solar panels and batteries.

Solar Panel Recycling

We take all types of solar panels.

Our unique recycling process recovers more than 95% of:

- Monocrystalline Solar Panels
- Monocrystalline Panels from suppliers in Australia
- All types of solar panels from the United States
- Recycled solar panels from suppliers

Battery Recycling

We take all types of batteries.

Our advanced recycling process recovers more than 95% of the materials used in batteries, including:

- Monocrystalline and Polycrystalline Batteries
- Monocrystalline Batteries from suppliers in Australia
- All types of batteries from the United States and other countries
- Monocrystalline and Polycrystalline Batteries from suppliers
